EDUCATION

University of Nottingham

MSci Computer Science - 2:1

Nottingham, Nottinghamshire

2024-2028

- **Team Leader, Software engineering group project (Python, JavaScript, Docker, Redis)** - designing and implementing a smart travel application. Coordinating task allocation, version control, and integration using GitLab. Overseeing code reviews, sprint creation, documentation, and testing to ensure quality and collaboration.
- **Reversi Game (Java)** - Achieved 2:1 - Designed and implemented a playable Reversi game with an AI opponent using an MVC architecture.
- **Operating System Simulator (C)** - Achieved 1st by implementing process scheduling, memory management, and resource allocation.
- **Spotify Vinyl Visualiser (JavaScript, HTML/CSS, Spotify API)** - Built a full-stack web app using OAuth 2.0 PKCE flow to display live "now playing" data as an animated spinning vinyl with real-time progress sync, plus a queue viewer and custom SVG/CSS decorative animations.
- **Wine Quality Prediction (Python, ML)** - Scored 88.5% (First) by building, analysing and comparing regression and decision tree models to predict wine quality.
- **Geography & Computer Science Poster Project** – Presented research on using machine learning to predict flood risk at the BCSWomen Lovelace Colloquium 2026, gaining experience in interdisciplinary research and academic communication.
- **Unity Hackathon Game (C#, Game Development)** - Developed a playable game in Unity during a hackathon - rapid prototyping, cross-platform development, game mechanics.

Homewood School and Sixth Form Centre

Tenterden, Kent

2017-2024

- Completed GCSEs and A-levels: Geography - A; Maths - B; Chemistry - C; and Mandarin Chinese - D.
- Leadership: Language Leaders club Organiser; Student council; Duke of Edinburgh Bronze (2020).
- **CyberFirst, Summer Schools (August 2021, 2022, 2023)** - Completed CyberFirst Defenders, Futures and Advanced courses. Cybersecurity fundamentals and hands-on practical scenarios.

WORK EXPERIENCE

Smart Bar Assistant

University of Nottingham, Nottinghamshire

September 2026 - Present

- Acted as a first point of contact for staff and students, troubleshooting network and Wi-Fi connectivity issues, account activation/registration problems, and password and MFA resets.

Student Mentor, University of Nottingham

Nottingham, Nottinghamshire

Dates Position Held (September 2025 - Present)

- Supported 500+ first-year students in transitioning into university life, answering queries and signposting to services.
- Moderated departmental Discord server to maintain a welcoming, inclusive community.
- Led a group of 16 students during welcome week.

Welfare Secretary, HackSoc Society

University of Nottingham

August 2025 - August 2026

- Elected by peers to promote inclusivity and well-being within a 100+ member student tech society.
- Whilst acting as a point of contact, I built experience in data collection and feedback systems to adapt to the students' voice.
- Developed active listening, empathy, and organisational skills through supporting students and coordinating society activities.

General Secretary, HackSoc Society

August 2026 - Present

- Responsible for organising meetings, events and administrative tasks for the society.

Part-Time Tutor, Explore Learning

Online

June 2023 - Present

- Delivered 1:1 and small group tuition to children aged 4–16, tailoring methods to varied learning needs.
- Supported 11+ and GCSE preparation, building confidence through clear explanations and interactive exercises.

- Developed strong communication and patience while supporting long-term student progress.
- Taught technical troubleshooting to children and their parents for Microsoft Teams.

SKILLS AND INTERESTS / AWARDS AND ACHIEVEMENTS

Technical Skills: *Programming* - Java, Python, C, C#, ARM Assembly, HTML/CSS, SQL, Haskell and JavaScript.

- *Tools & Concepts* - Git, Linux, machine learning (regression, decision trees), cybersecurity fundamentals, agile teamwork, debugging & problem-solving.
- Nominated by the University of Nottingham to participate in a summer school programme - Learn software design using C++ from the inventor of C++ - with Dr Bjarne Stroustrup at Aarhus University, Denmark. Demonstrates recognition for technical excellence and commitment to advanced language learning.

Professional Skills: Communication & teamwork; Organisation & adaptability; Leadership & mentoring (HackSoc Welfare Secretary, Hacksoc General Secretary, Student Mentor, Senior Student Mentor, Girlguiding progression); Activity planning & event coordination.

Languages:

- o English (native)
- o Mandarin (Intermediate) -
 - Achieved a Gold HSK 3 certificate in June 2021.
 - Selected for a Spring Camp programme in China (April 2026), gaining cultural immersion and international experience.
